

AIMEE'S IMPACT STORY

Money Ready: A workshop like no other.

Written by Aimee, aged 20.

"I had the pleasure of taking part in a finance course with Money Ready in Bristol over the course of multiple days. As a young person with extremely limited finance knowledge, I was terrified to go into the adult world, not even knowing how to budget never mind paying rent and water bills. Naturally, I jumped at the opportunity to be able to take part in a finance course with Money Ready.

I was expecting the equivalent of a lecture, someone stood at the front of the room, telling me all the information and then leaving. What I got was so much better!

My course was tons of fun, incredibly interactive and offered an inquisitive and entirely judgement-free environment.

I needed to take a course – my personal spending wasn't great. But talking through why I spent so much money on takeaways was such an easy and natural conversation that I never felt embarrassed to talk about my money struggles.

Along with the rest of my group, I was able to come up with alternative spending methods, and I left the course desperately wanting start saving my money instead.

I learnt in detail about loans and credit, APR, payday loans, buy now pay later schemes, taxes. Things I had never known before.

I left feeling so informed and confident about my own ability to navigate the world and the finances of adult life.

This is something I recommend every young person do.

Thank you Money Ready. I had a blast, and I definitely know more now than I did before.
