Our vision

A financially fluent population.

Our mission

We bring the language of finance to life so that everyone can navigate their money with confidence, no matter where they start.

Our values

Young at heart, serious in intent.

Stories are the best means of education.

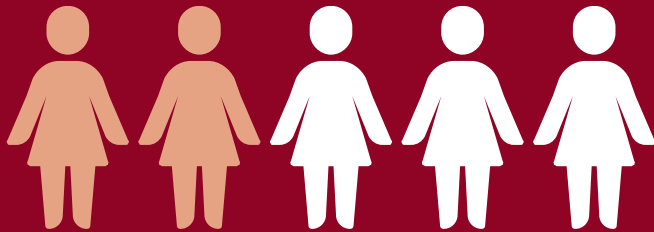

We live in the real world.

These values underpin all that we do - shaping how we support young people and adults, collaborate as colleagues, and deliver work that has lasting impact. Working at Money Ready means contributing to something meaningful, in an organisation that values both purpose and people.

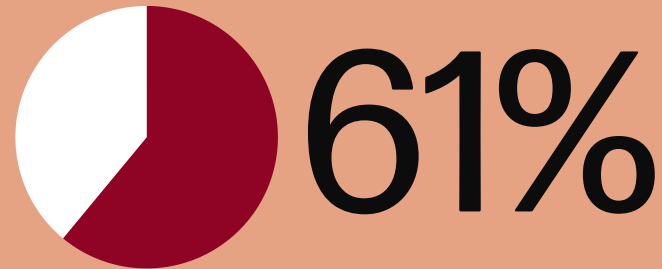

The need

Poor financial literacy is central to many problems people face today, including rising mental health issues, homelessness and unemployment. We're here to change that.

Only 40% of young people aged 16-24 feel confident managing their money, compared to 82% of over-64s.

The role

This role delivers a range of dynamic and engaging financial education programmes to young people, adults, and professionals. As part of our Programmes and Delivery Directorate, our trainers are passionate about working with our participants. They are the front line of our work, representing Money Ready's exceptional programme quality across a variety of settings.

The role involves working with both children and adults across our suite of programmes and requires significant travel to our delivery locations throughout the area to deliver face-to-face sessions to diverse groups of learners. There will also be occasional requirements to deliver virtual sessions.

We are proud of the quality of trainers we hire and have a diverse team, including former primary and secondary teachers as well as youth workers. You will be joining an excellent team who really know their stuff, so there will be plenty of opportunities for you to learn and to provide feedback on how our programmes might be improved. You do not need to be a financial education expert already, we will provide full training on everything you need to know.
